Junior Frontend Developer with a Computer Science degree and experience building responsive web applications and digital tools. Skilled in JavaScript, HTML, CSS, React, TypeScript and REST APIs. Focused on building user-friendly interfaces and scalable web solutions. Actively developing React and TypeScript projects to deepen modern frontend expertise.

SKILLS

- **Frontend Development:** HTML, CSS, JavaScript, TypeScript, React, Responsive Design
- **Framework & Libraries:** React, NextJS, Tailwind CSS, REST APIs
- **Tools:** Git, GitHub, Figma, Miro, VSCode, Chrome Devtools
- **Databases:** MySQL, Cosmos DB, Supabase
- **Other:** Agile, JIRA, User-Centred Design, UX/UI Principles, API integration

PROJECTS

- React Task Manager App** – Next.js, React, Typescript 2026
- Built a responsive task management app with component-based architecture and local state management.
 - Implemented CRUD functionality and persistent storage using localStorage.
 - Focused on accessibility, responsive layout, and clean UI using Tailwind CSS.
- Portfolio Website** – Next.js, React, Typescript 2025
- Designed and developed personal portfolio deployed on Vercel.
 - Built reusable UI components and responsive layouts.
 - Integrated project showcase and contact functionality.

EXPERIENCE

- Web Developer – Creative Intelligence** Apr 2021 – Oct 2021
- Developed responsive websites using HTML, CSS, JavaScript and MySQL, focusing on accessibility and usability.
 - Built reusable UI components and layouts in Figma and implemented them in code.
 - Collaborated with clients and developers to refine requirements and iterate on designs.
 - Optimised performance, responsiveness, and cross-browser compatibility.
 - Worked with REST APIs to fetch and display dynamic data in web interfaces.
- Project Manager & Founder – Gilguzi** www.gilguzi.com Oct 2021 – Nov 2023
- Designed and built the company website using Wix and Figma, focusing on UX, accessibility, and mobile-first layouts.
 - Implemented custom HTML/CSS and interactive elements to improve usability and engagement.
 - Translated user and stakeholder needs into structured digital solutions and website features.
 - Managed ongoing testing, updates, and improvements based on user feedback.
- Regional Finance Officer – Ark Schools** Nov 2023 – Aug 2025
- Improved digital workflows using SAP, Xero, and iPay systems, reducing manual processes and increasing efficiency.
 - Built automated reporting tools in Excel and Power BI to improve data accessibility and decision-making.
 - Delivered training on digital systems and supported adoption of new tools across teams.
 - Worked closely with stakeholders to identify problems and implement user-friendly solutions.

EDUCATION

- **MSc Finance and Financial Law (2:1)** – SOAS University of London (2019–2020)
- **BSc Computer Science (1st Class Honours)** – Goldsmiths, University of London (2016–2019)
